This program already successfully serves manufacturing and service organizations. Here's what our clients have to say:

"We have been using the Virtual Corporate Counsel program for over six years. The change in our mindset in how we include our legal team has resulted in significant improvement in our operations (including compliance), much better employee relations, and fewer litigation matters due to thorough contract review and early legal involvement. There is great comfort in knowing I can pick up the phone and call my attorney to ask questions and not be worried about the bill."
